

# **“Approve Buyers Comments Pro” WordPress Plugin**

## **User Manual**

### **THE FOLLOWING TERMS AND CONDITIONS APPLY:**

While all attempts have been made to verify information provided, neither I, nor any ancillary party, assumes any responsibility for errors, omissions, or contradictory interpretation of the subjectmatter herein.

As the FTC Rules requires, we do not guarantee or imply that by using this tool, you will get rich or make money at all.

Software and associated files is distributed as is without any warranty of any kind, either express or implied.

Software and associated files is not freeware or shareware.

Selling or distribution of the code (in whole or in part) of this program without prior written consent is expressly forbidden.

# Plugin Overview

The plugin helps you to automatically approve comments from people who purchased one or more of your products (buyers) and puts the rest (non buyers) into moderation.

This can help you to interact with your buyers in many ways...

- Collect testimonials and reviews from buyers.
- If you're releasing product updates, you can get feedback and questions from your buyers only.
- You could also setup a quick post for support (faq's) where your buyers could interact with you.

Everything without having to deal with spammers.

## Installing The Plugin.

Installing the plugin is like installing any other WP plugin.

**Step 1:** Go to the "Plugins" section and click.

**Step 2:** Click "Add New" and Upload the included zip file.

**Step 3:** Activate it.

----- Intentionally Left in Blank -----

# Using The Plugin.

Using the plugin is really easy.

After installing it, go to a “download” page or post (a page where only Your buyers will have access).

Then go to the content editor and click this button ...

This will insert a shortcode inside the editor (will be invisible at runtime).

When a buyer gets access to this page, he/she will be cookied and will be able to post comments on your website (their comments will be automatically approved).

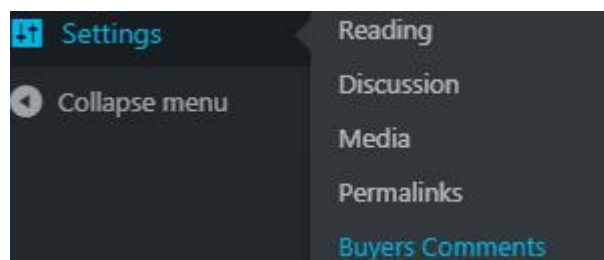

The rest of the comments (from non buyers), will be put in moderation.

## Pro Version.

In the “Pro” version (which you already have), you can redirect “Non Buyers” after they submit a comment, to any url of your choice.

This is a great opportunity to offer exclusive deals (\$1 membership access to your content, Viral Unlocking offers, special coupon codes etc).

If you want to set a redirect url for these visitors, you can do it from Your WordPress Admin area (Settings ---> “Buyer Comments”).

Then enter your url, save it and that’s all.

### After Submitting a Comment, Redirect Non Buyers To This Url:

Leave this option in blank to not use it. Tip: In the target url, if you want to create a "Go Back to the Previous Page" link, use `<script>document.location.href=document.referrer</script>`

Target Url: (Must begin with  
http:// or https://)

Save Changes

## Final Comments.

1. Comments from Administrators will be also auto-approved (so you - or other administrators - can quickly reply any comment).
2. If you want to make a test as a “Non Buyer”, make a test on a different browser (where you’re not cookied) or delete the cookies of your browser.
3. Of course, this only works with the intrinsic comments system that wordpress provides.
