

Reseller Guide

To start reselling PromoPageGenerator instantly, simply follow the steps below:

- ➔ Open the pages you find in the 'Website' folder in your favorite HTML-editor (*if you haven't got one yet, you can get one for free [HERE](#)*) and replace all the pink text with your own info.
- ➔ Create and add your payment button code to both sales pages.
- ➔ Rename both download pages – choose names that are hard to guess, so no-one can download your files without payment.
(*However, this won't be enough to keep thieves from stealing your files. Some interesting info & an easy solution can be found [HERE](#)*)

NOTE: you don't have to make any changes to the download links.

If you follow the steps below, they'll be active once you've
uploaded everything.

- ➔ Rename the 'website' folder and upload it to your site.
(*You can watch a video on how to upload your files [HERE](#)*)

- ➔ Upload both 'promopagegeneratorPUO.zip' and 'promopagegeneratorMRR.zip' to your renamed 'website' folder.
- ➔ Check your pages, links & payments buttons by visiting & testing all your uploaded pages one by one.
- ➔ Start promoting your basic sales page.
